Heat soaked thermally toughened soda lime silicate safety glass for use in buildings

Product: Coated float E > 0,25

CONFORMITY	STANDARD/DATA
Thickness (mm)	4; 6
Mechanical resistance and stability	EN 14179-1, EN 12150-2
Safety in case of fire	NPD
Hygiene, health and environment	NPD
Safety and accessibility in use	NPD
Protection against noise	See float glass producers data
Energy economy and heat retention	See float glass producers data
Sustainable use of natural resources	NPD
Light transmittance and reflectance	See float glass producers data
System of assessment and verification of constancy of performance	System 3
NOBO 0336 performed ITT under system 3 and issued test report(s) no.:	89203045
